DIVISION OF ARTS AND SCIENCES
Robert Miller, D.A., Division Chair

DEPARTMENT OF COMMUNICATION
Jason Huddleston, Ph.D., Department Chair

The Department of Communication prepares its students to teach, to pursue graduate degrees, and to acquire pre-professional knowledge for ministry and vocation.

PURPOSE

The Department of Communications promotes the study of and response to language and literature as means of articulating one’s ideas and enriching one’s cultural and intellectual understanding of and appreciation for life.

PROGRAM OBJECTIVES

By the end of the program, the students will
1. communicate using Standard English to speak and write with precision, clarity, and confidence;
2. demonstrate the ability to research, incorporate, and document scholarly resources as a means of secondary support;
3. interpret texts within various critical contexts to gain personal and global insight; and
4. distinguish authors, works, trends, ideas, genres, and periods within the literary development of American, English, and world literatures.

SPECIAL REQUIREMENTS

- A student will be assigned to his initial English course based on his qualifying ACT English score:
  - 18 or below English Fundamentals (ENGL-0103)
  - 19-26 English Composition I (ENGL-1013)
  - 27 or higher English Composition II (ENGL-1023)
- A student must take the required six hours of freshman English in sequence (ENGL-1013 and ENGL-1023) and earn a minimum grade of "C" in each course. A student who does not earn a minimum grade of "C" must repeat the course in the following semester in which the course is offered.
- A student must complete ENGL-1023 before enrolling in any literature courses. Exceptions may be granted by approval of the English Department chair.
- ENGL-1013 and ENGL-1023 cannot be taken simultaneously.
- At the end of their second year, English majors will be interviewed, tested, and assessed by the Department of English in order to be advised either (a) to continue their English degree programs (with or without stipulations) or (b) to discontinue their English degree programs.

ENGLISH MAJOR REQUIREMENTS

Department Meetings – All English majors are required to attend two department meetings per semester.

Department Activities – All English majors are required to attend at least one departmentally-sponsored activity (a play, film, literary reading or conference, etc.) per semester. The activity may be organized by an English professor or a major but must be approved by the Department Chair to fulfill this requirement.

GPA – All English majors are required to maintain a 3.0 or higher in English and Communication courses and a 3.0 overall GPA to remain in the program. Majors who fall below 3.0 have one semester in which to raise their GPA; otherwise, they will be placed on Departmental probation. Majors who remain on academic probation for two semesters / one year will be suspended indefinitely from the program.

### DEGREE TOTAL ............................................................................. 125-128 HOURS

Note: All education majors must complete 50 hours of field experience by the end of their sophomore years. Secondary Education majors must complete a total of 20 more hours of field experience during their junior and senior years (not including the student teaching experience) for a total of 70 hours of field experience.

For information concerning additional requirements of the Teacher Education program, see under “Department of Education”.
The Department of Mathematics and Natural Sciences introduces students to the scientific method and logical reasoning so they can be equipped to investigate the natural world, provide leadership in the natural sciences and serve society as a responsible steward of God’s creation.

PURPOSE

1. To educate and train students in a rigorous scientific and mathematical program to prepare them for graduate studies or professional work in biology, engineering, mathematics, medicine, business, nursing, pharmacology, dentistry, or other related areas.

2. To educate and train teachers of the biological sciences and the mathematical sciences for service in Christian and public schools.

3. To enhance the mathematical knowledge, quantitative skills, scientific knowledge, reasoning skills, and analytical thinking skills of all students of Tennessee Temple University.

MATHEMATICS PROGRAM OBJECTIVES

The goal of adequate preparation for graduate school or mathematics-related career placement will involve the following student objectives:

1. The student will demonstrate knowledge of a broad spectrum of content of mathematical topics.

2. The student will be proficient in using appropriate technology to calculate quantities, analyze data, or visualize mathematical content.

3. The student will demonstrate adequate analytical reasoning skills in conjecture and proof, mathematical derivation, problem solving, and data analysis.

SCIENCE PROGRAM OBJECTIVES

The goal of adequate preparation for graduate school or science career placement will involve the following student objectives:

1. The student will demonstrate knowledge of a broad spectrum of content in the biological and/or physical sciences.

2. The student will be proficient in the utilization of an array of laboratory skills and procedures using various types of apparatus.

3. The student will solve problems or conduct scientific inquiry using analytical reasoning skills and content application.

4. The student will evaluate scientific issues from a Biblical perspective.

DEPARTMENT OF MUSIC
William A. Knowles, D.M.A., Department Chair

PURPOSE
The music curriculum is designed to provide the qualified Christian student with a broad foundation of music theory, sight-singing and ear-training, performance and pedagogy, all presented from a biblically based philosophy of music. The primary concern is to prepare students for careers and ministries as performers, and church musicians in which they will reflect biblical truth in their leadership. The program also builds a foundation for continued graduate study.

PROGRAM OBJECTIVES
1. The Department will provide music education for music students in both the theoretical and practical aspects of music.
2. The student will demonstrate college level proficiency in musicianship, and knowledge, within the context of a biblically based philosophy of music.
3. The student will demonstrate effective musical leadership for Christian ministries.
4. The student will demonstrate professional skills needed by the music ministry leader, music teacher, or music professional.
5. The student will demonstrate functional computer skills as they relate to the discipline of music.
6. The student will contribute to musical activities in both the University and the wider community.
7. The student will demonstrate skills and knowledge that will enable him/her to pursue graduate study or a career in performing, and music ministry.

PROGRAM REQUIREMENTS
Every student enrolled in the music degree program specializes in a performing (applied area): instrumental or voice. Additionally, students enrolled in the Church Music in Contemporary Styles must gain a proficiency in guitar, as well as piano.

Audition - A student wishing to pursue a major or (minor) in music must audition in piano, voice, or an approved instrument before being accepted in the Music Program. All students must take a theory placement examination. Any student who does not pass the theory examination must take MU-1003 Fundamentals of Music prior to enrolling in MU-2203 Music Theory I.

Applied Music Study – Freshmen students take half-hour lessons weekly, while sophomore through the senior years one-hour lessons are given.

Ensemble Participation – All music majors are required 8 consecutive semesters of Weigle Concert Choir participation. Other ensemble groups are available according to semester and may be taken as electives. All instrumental majors are required to participate in Highland Park Church Orchestra. There are two chapel praise bands as well as two traveling contemporary praise groups that are available through special audition and provide scholarship assistance.

Repertoire Class/Master Classes/Recitals - All students enrolled in the music program are required to attend repertoire class each week, which meets Fridays at 11:00 am. At this time students are given opportunities to perform, increasing their performance technique. Throughout the year the school invites specialist in a particular area (voice, piano, other instrumental) for master classes and recitals. Music students are required to attend all master classes. All music students are required to register for concert
attendance for 8 semesters. These concerts are usually a part of the Chattanooga Symphony/Opera concert season as well as some recitals performed here on campus, and other local schools of music. Concert attendance music fees cover the cost for tickets for the Chattanooga Symphony/Opera.

**Piano Proficiency** – All non-keyboard majors are required to pass a piano proficiency exam in order to qualify for the Bachelor of Science in Church Music. Students will register for class piano until this proficiency is passed. The student may take the proficiency exam before registering for classes if the student has prior study. Students are given two semesters with credit two achieve the proficiency. If the proficiency is not met by the end of the first year, the student will take class piano for 0 credit until proficiency is passed. Students enrolled in the Church Music in Contemporary styles must also pass guitar proficiency.

ELECTIVES
Electives.............................................................................................................. 3-7 hours

DEGREE TOTAL .................................................................................................... 120-122 HOURS
Must have 30 total hours at 3000-4000 level to meet graduation requirements for a bachelor’s degree.
DEPARTMENT OF PSYCHOLOGY

The Department of Psychology seeks to acquaint students with basic psychological principles and their application to human behavior, using Scripture as the foundation for understanding and treating all human conditions and problems. Psychology degrees are available residentially or through the Online Learning program.

PURPOSE

The psychology major is designed to prepare graduates with a foundation for graduate study or service in various psychological fields, including counseling, development, school psychology, social work, clinical, and other specialty areas.

PROGRAM OBJECTIVES

1. The student will demonstrate skill in individual, group, and organizational dynamics and their interplay in social structures.

2. The student will demonstrate an understanding of the basic psychological principles and applications to human behavior.

3. The student will evaluate psychological theories and positions in light of Scriptural truth.

4. The student will demonstrate a broad-based academic exposure by being adequately prepared for continued graduate education in the various fields of psychology.

The Department of History and Social Studies serves the university mission by introducing students to the study of the past that is characterized by academic excellence based on biblical values. It offers three programs for history majors: The Bachelor of Arts, Bachelor of Science and a History major with Primary or Secondary Education components in conjunction with the Education Department. It also offers students a Minor in History.

**Purpose**

Centered on a Christian worldview, instruction acknowledges the active hand of God throughout the intricate process of human history. Instruction focuses on transformative historical events and ideas, as well as important continuities. Although historical events have objective elements, interpretation of them requires a complex and subjective process of assessment. In the end, that endeavor generally results in a composite of accepted perspectives by scholars on given subjects. Those perceptions tend to influence the direction of social and political interests; therefore it is vital that citizens have the minimal skills to check the objectivity of those conclusions. To that end, the department intends to inculcate all students with effective skills to impartially assess and understand the causes and process involved in the evolution of social ideas and evolution of historical events. For history majors, those skills include the critical analysis of texts and arguments, unbiased interpretation of evidence, research in a variety of media, and clear and effective oral and written communication in a broad spectrum of social, cultural and intellectual history. These skills will aid students in a multiplicity of vocational and professional fields, and help them become thoughtful and effective American citizens. In the end, all programs are designed to prepare students to serve both God and humanity by integrating academic knowledge of social studies with biblical truth (I Corinthians 10:1-13)

**PROGRAM GOALS**

1. Students are aware of the variety of human perspectives regarding pivotal social and intellectual continuities and significant transformative changes in human history.

2. Students continually assess pivotal social ideas and historical events to develop effective perspectives.

3. History majors and minors comprehend and effectively employ the tools of historical enquiry and writing.

4. All students utilize a Christian world-and-life-view to interpret social ideas and historical events.

**PROGRAM OBJECTIVES**

1. **Historical awareness, understanding and enlightened perspectives**
   Graduates students and BA/BS history majors and minors will demonstrate that they:
   a. Can cite at least 10 pivotal innovations, ideas or practices that contributed to the emergence of cities and civilization in World History.
   b. Can describe at least 5 developments or ideas that contributed to the evolution of empires and cite examples.
   c. Can identify at least 5 innovations that contributed to the development of the renaissance, which originated in Asia.
   d. Can effectively challenge historical perspectives that present Important Biblical teachings as evolutionary by citing a least two examples.

2. **Assessing pivotal historical events and challenging biased perspectives**
   All history majors should demonstrate that they:
   a. Can cite at least 4 examples of historical bias that greatly impacted modern history.
b. Can apply critical evidence to assess historical perspectives, by looking at the quality of sources, the validity of interpretations of sources, and the soundness of argument's use of evidence to support a historical interpretation by outlining at least one brief example in modern history.

3. History majors & minors comprehend and effectively employ the tools of historical enquiry and writing.
   History majors, will demonstrate their ability to employ the tools of historical enquiry and writing by researching and writing a capstone thesis research paper that includes the following:
   a. Locate relevant primary and secondary sources for investigating a research question.
   b. Establish the contextual historiography of the subject by critically evaluating primary and secondary sources in terms of credibility, authenticity, interpretive stance, audience, potential biases, and value for answering the research question.
   c. Develop a thesis statement.
   d. Interpret the sources fairly and accurately in an answer to a research question.
   e. Marshal the evidence from the research to support a historical argument developed into a research paper.

4. Students will comprehend a Christian world and life view and how it applies to historical interpretation
   All Students will demonstrate that they can apply a Christian World and Life view in historical interpretation by the following:
   a. Can briefly explain how Christian assumptions about God and the world have important implications for historical interpretation.
   b. Can briefly illustrate with 2 examples of how Biblical and secular ideas in seeming conflict can be rectified by citing different assumptions.
